Use of the Information:

NSF developed the RPPR as a service within Research.gov. The service provides a common portal for the research community to manage and submit annual project reports to the National Science Foundation (NSF) and to partner agencies. This service replaced NSF's annual and interim project reporting capabilities which resided in the FastLane System.

Complete information about NSF's implementation of the Research Performance Progress Report (RPPR) may be found at the following website:
<http://www.nsf.gov/bfa/dias/policy/rppr/index.jsp>.

Burden on the Public: The Foundation estimates that an average of 6.6 hours is expended for each report submitted. An estimated 120,000 reports are expected during the course of one year for a total of 30,000 public burden hours annually.

Dated: May 18, 2022.

Reports Clearance Officer,
